USER MANUAL

Technician App

Step-by-step guide for field technicians

Contents

1. Sign in
   Employee ID, PIN and language
2. My jobs
   Job details, postpone, reschedule, reminders, cancel requests
3. Field service report
   Customer, machine, time record, faults, parts, status and signatures
4. History
   Open, view, copy and sync your reports
5. Equipment service report
   Maintenance checklist and follow-up visits
6. Parts requests
   Track, edit and cancel your requests

Getting around. The menu is always at the top of the screen:

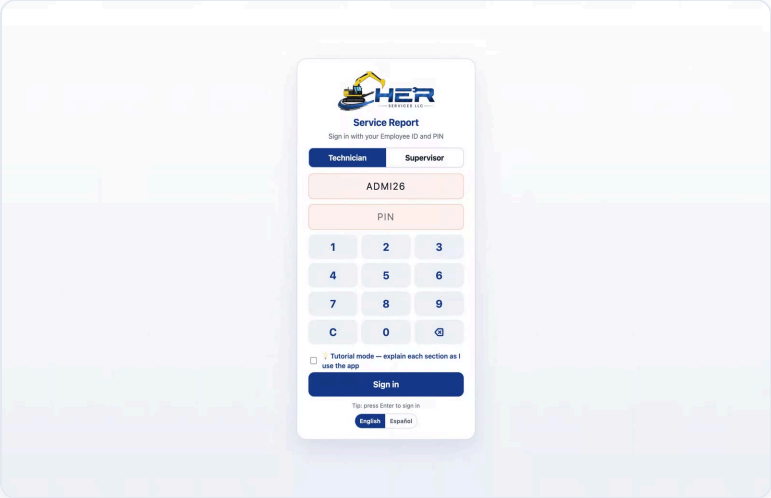

Jobs **Field Service Report** **Equipment Service Report** **Parts Requests** **History**

The green dot shows you are signed in. Use **EN** / **ES** to change the language, **Tips** for help, and **Sign out** when you finish. At the bottom of every report you will find **New**, **Save** and **Send / PDF**. A narrated video version of this manual is also available: *Technician_App_Tutorial.mp4*.

01 Sign in

Service Report → Technician

1. Tap **Technician**.
2. Type your **Employee ID** (for example *MS26*).
3. Enter your **PIN** with the keypad. **C** clears it and ⌫ deletes one digit.
4. Tap **Sign in**.

The sign-in screen.

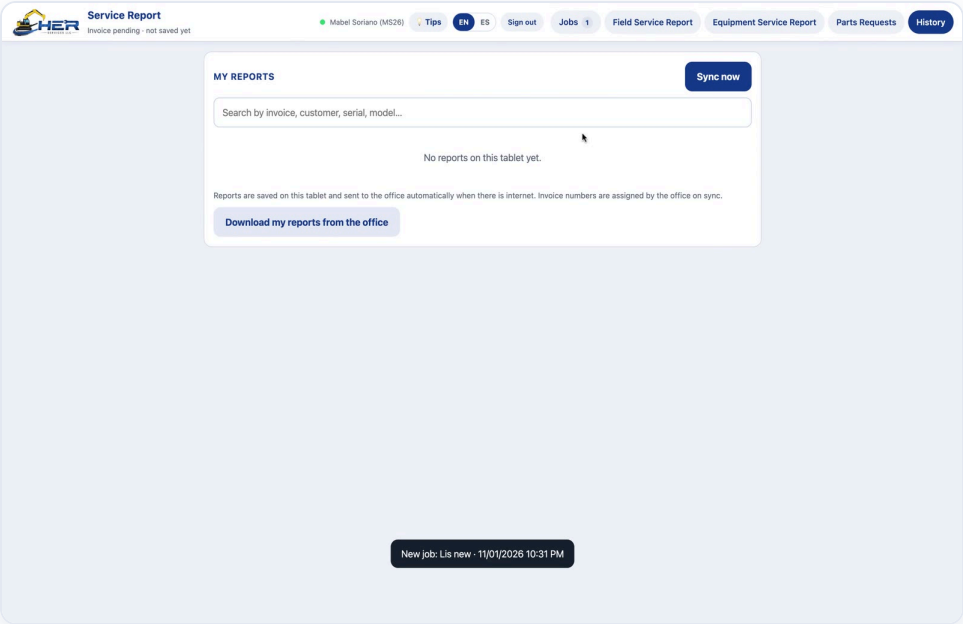

★ **Tip:** check **Tutorial mode** to get an explanation of each section while you use the app. Choose **English** or **Español** at the bottom.

ⓘ **Your ID and PIN** are created by your supervisor. Ask them if you forget your PIN.

02 My jobs

Jobs

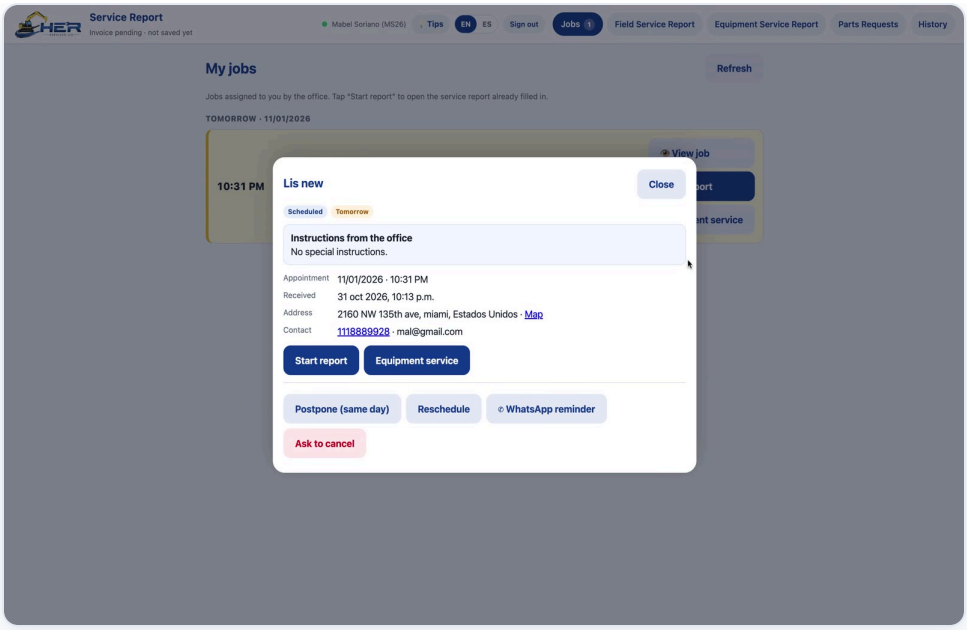

Jobs shows the visits the office assigned to you, grouped by day. Tap **Refresh** to load new jobs.

Your jobs for the coming days.

Job details

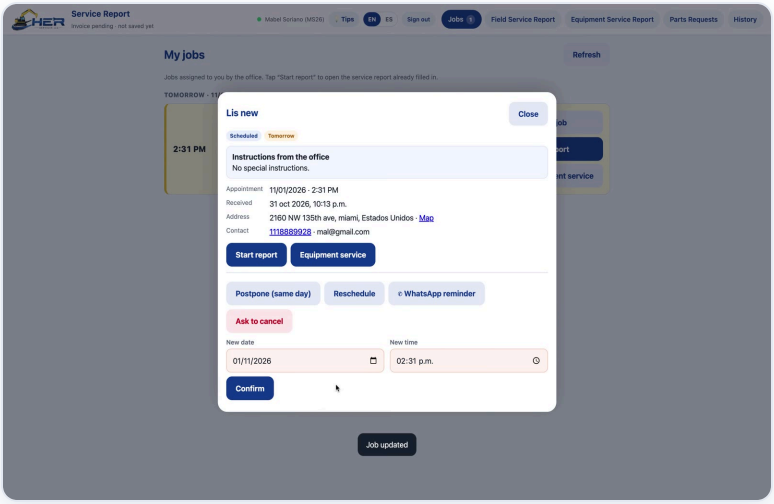

Tap a job to see the **instructions from the office**, the appointment, the address with a **Map** link and the customer's contact. Tap **Start report** or **Equipment service** to open the report with the customer already filled in.

Job details and actions.

Postpone or reschedule

- **Postpone (same day)** — choose a new time today and tap **Confirm**.
- **Reschedule** — choose a new date and time and tap **Confirm**.

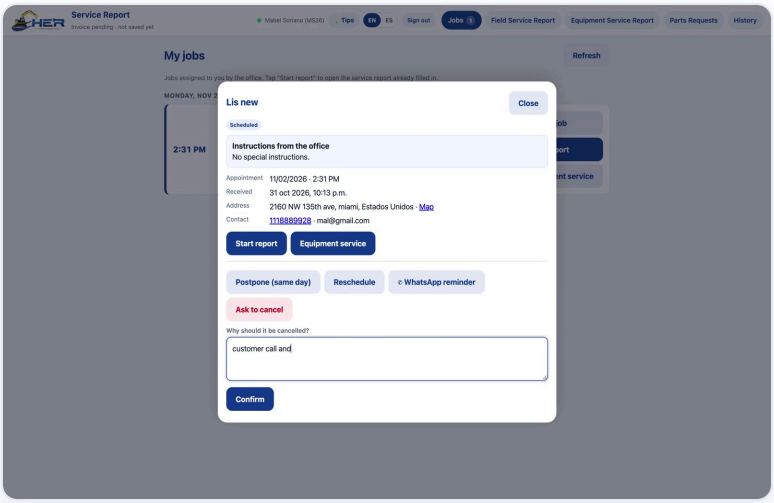

Rescheduling a job. The message "Job updated" confirms it.

WhatsApp reminder

Tap **WhatsApp reminder** to remind the customer about the visit.

Ask to cancel

If the customer cancels, tap **Ask to cancel**, write **why it should be cancelled** and tap **Confirm**. Your supervisor approves the cancellation.

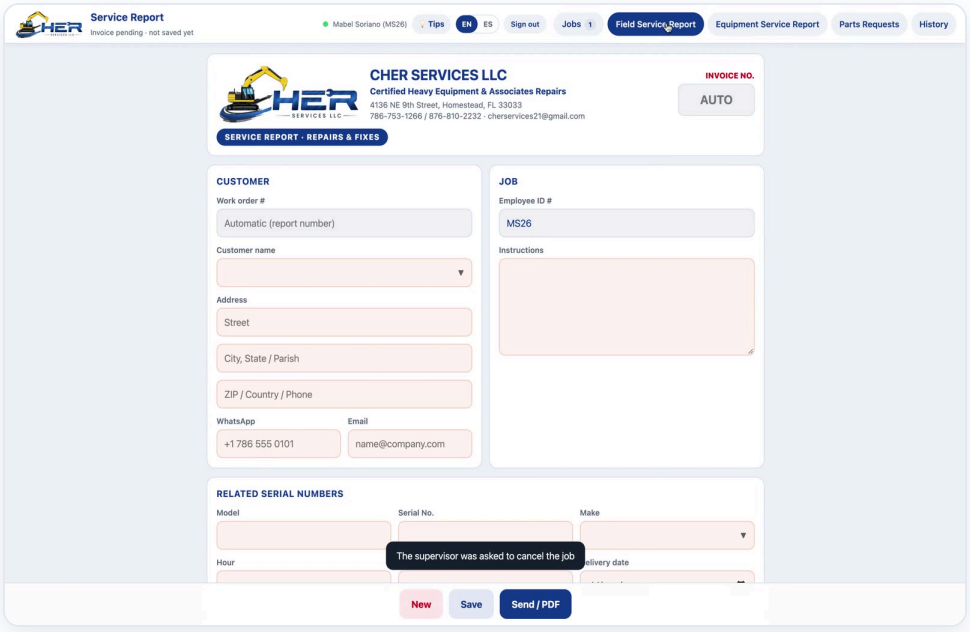

Asking the office to cancel a job.

03 Field service report

Field Service Report — repairs and fixes

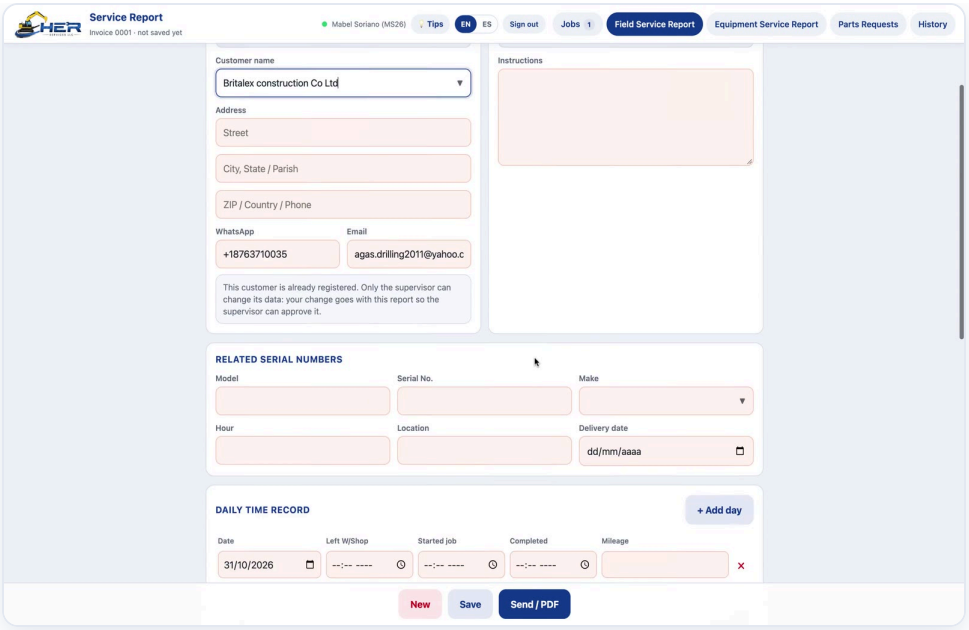

Customer and job

1. Open **Field Service Report** (or **Start report** from a job).
2. Choose the **Customer name** from the list. A report number is reserved for you automatically.
3. Check the address, WhatsApp and email. Your **Employee ID** is filled in for you.
4. Write any **Instructions** or notes for the job.

The top of the Field Service Report.

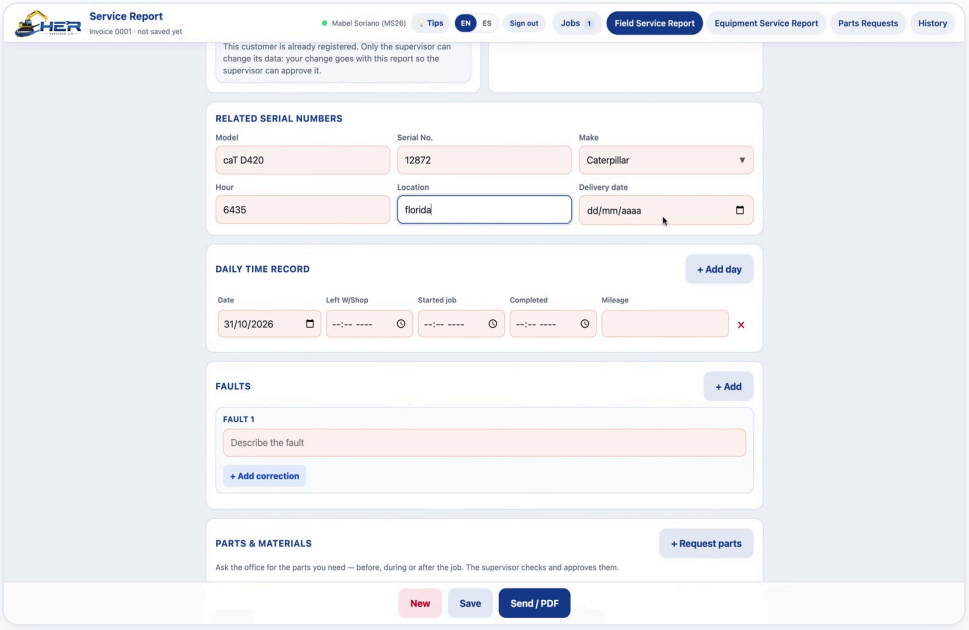

> **Registered customers:** only the supervisor can change their data. If something changed, update it in the report — your change goes with the report so the supervisor can approve it.

Customer data filled in automatically.

Related serial numbers

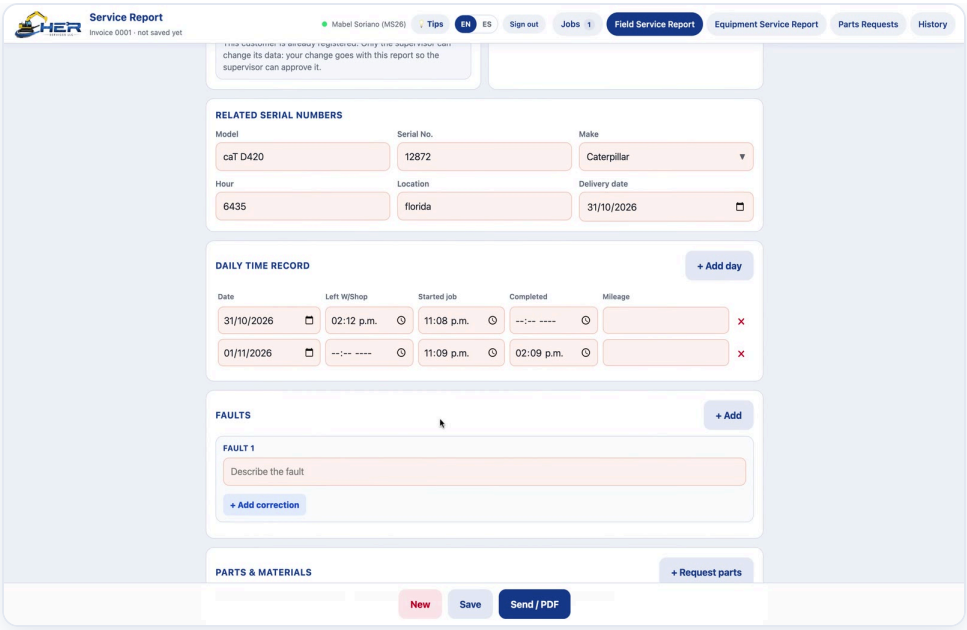

Enter the machine's **Model**, **Serial No.** and **Make**, plus the **Hour** meter reading, **Location** and **Delivery date**.

Machine information.

Daily time record

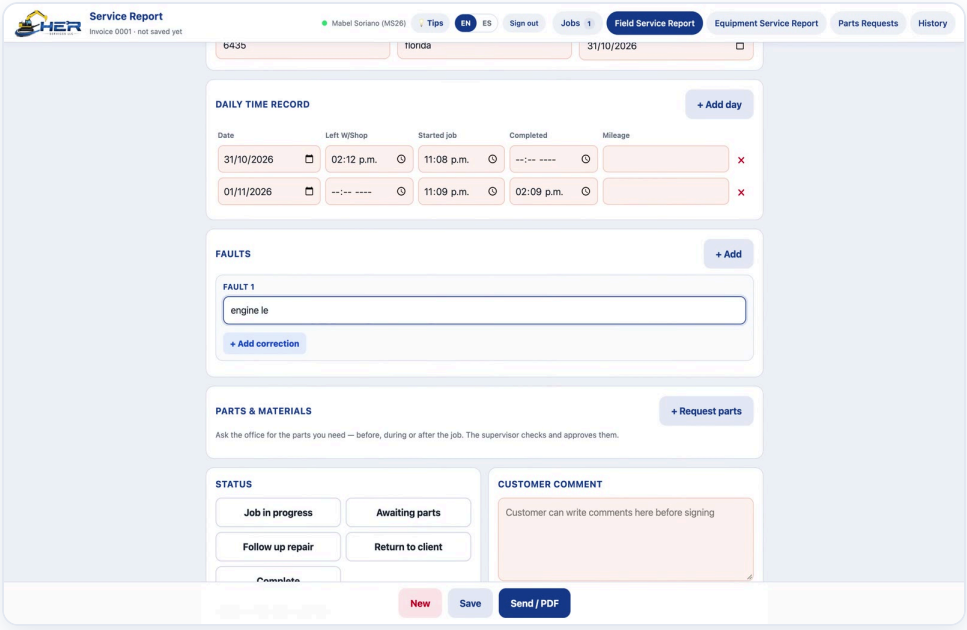

For each day, enter the **Date**, the time you **Left the shop**, **Started** and **Completed** the job, and the **Mileage**. Tap `+ Add day` for jobs that take more than one day; tap ✕ to remove a day.

A job recorded over two days.

Faults

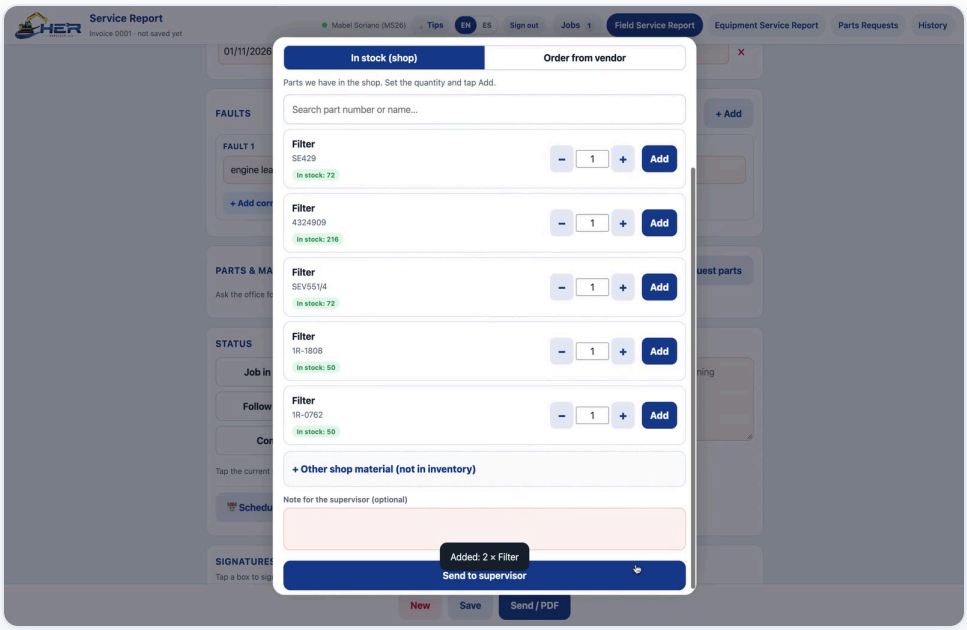

Describe each problem in **Fault 1**, **Fault 2**... (tap **+ Add**). Tap **+ Add correction** to explain how you fixed it.

Faults, parts and status.

Parts & materials

1. Tap **+ Request parts**.
2. Choose **In stock (shop)** or **Order from vendor**.
3. Search the part, set the quantity with **–** / **+** and tap **Add**. Use **+ Other shop material** for items not in inventory.
4. Add an optional **note for the supervisor** and tap **Send to supervisor**.

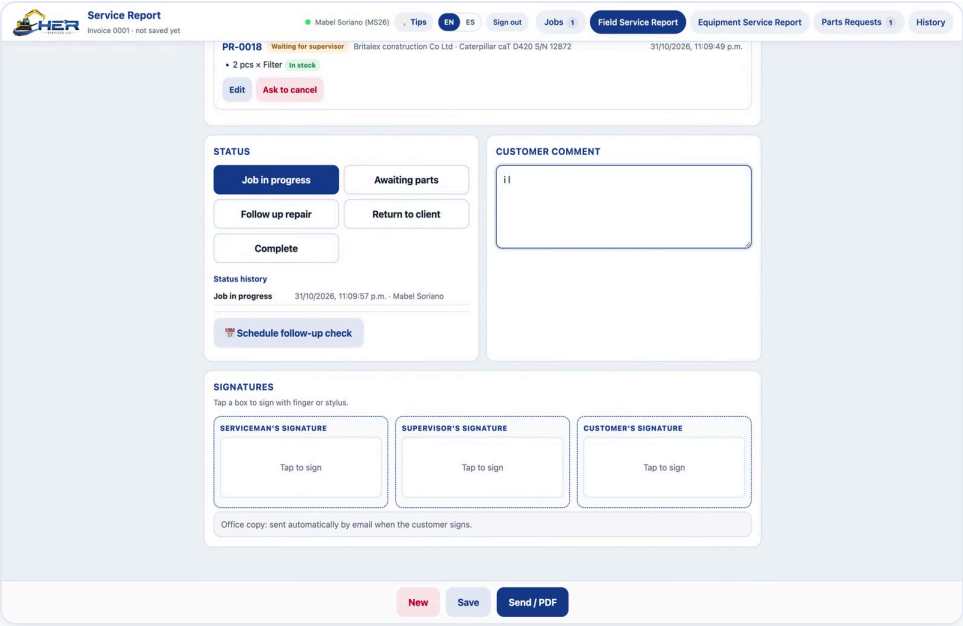

Requesting parts from the shop.

> **What happens next:** the request appears in the report as *Waiting for supervisor*. The supervisor prepares the quote; you show it to the customer.

Status and customer comment

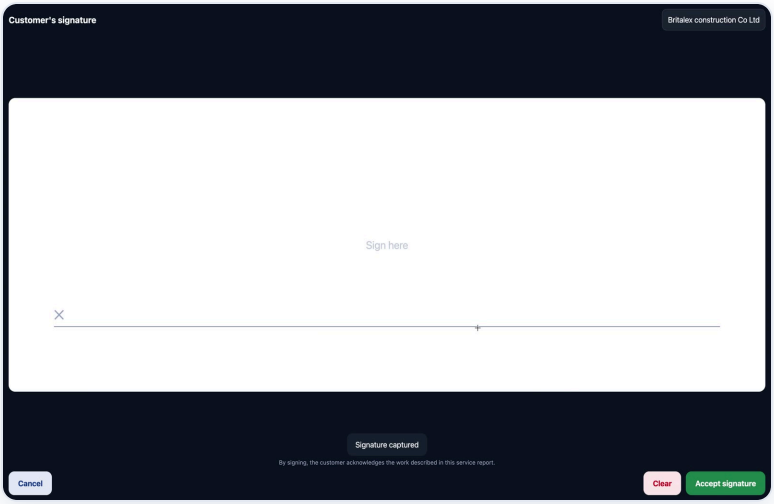

Tap the current status: **Job in progress** **Awaiting parts** **Follow up repair** **Return to client** **Complete**. Each change is saved in the **Status history**. The customer can write a comment before signing. Tap **Schedule follow-up check** if the machine needs another visit.

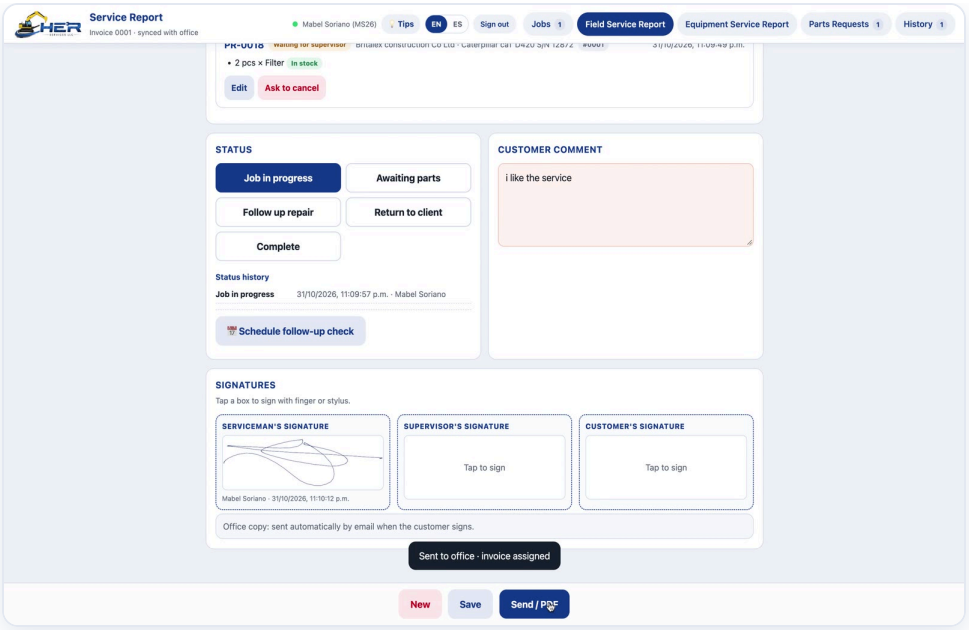

Status, customer comment and signatures.

Signatures and sending

1. Tap a signature box: **Serviceman**, **Supervisor** or **Customer**.
2. Sign with your finger or a stylus. Tap **Clear** to try again, then **Accept signature**.
3. Tap **Send / PDF**. The report goes to the office and the invoice number is assigned.

The full-screen signature pad.

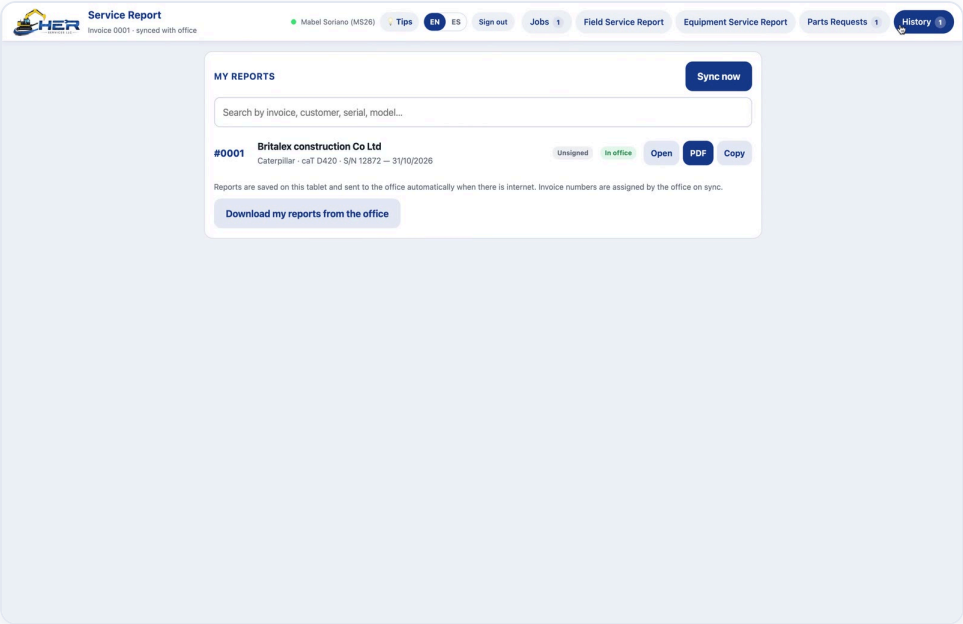

"Sent to office · invoice assigned".

Tip: the office copy is emailed automatically when the customer signs. Tap **Save** to keep working later, or **New** to start a blank report.

04 History

History → My reports

- Search by invoice, customer, serial or model.
- **Open** to continue a report, **PDF** to view it, **Copy** to start a new report with the same customer and machine.
- Tags show whether a report is **signed** and **in office**.
- **Sync now** sends your reports right away; **Download my reports from the office** brings them back to this tablet.

My reports.

> **Offline friendly:** reports are saved on the tablet and sent to the office automatically when there is internet. Invoice numbers are assigned by the office on sync.

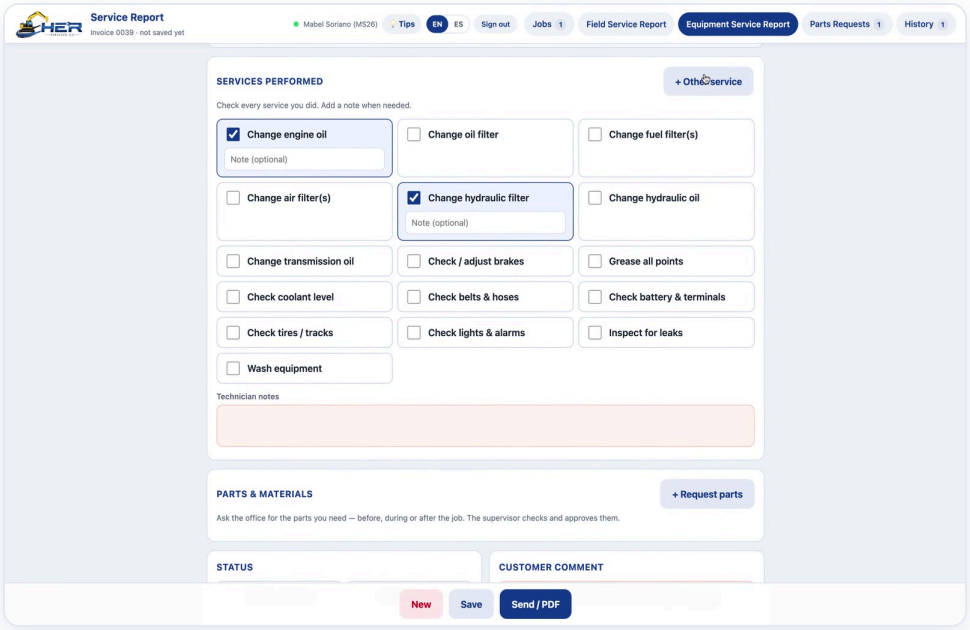

05 Equipment service report

Equipment Service Report — maintenance

Use this report for maintenance visits. Fill in the customer, the machine and the time record as in the field service report.

Services performed

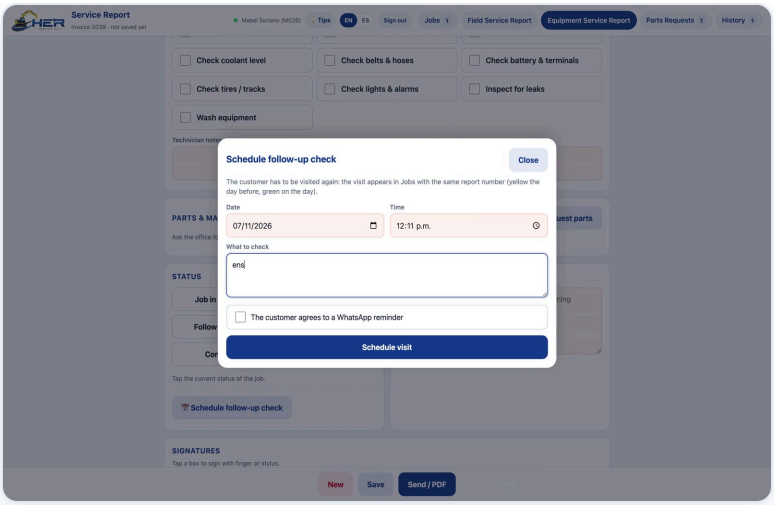

Check every service you did — for example *Change engine oil*, *Change hydraulic filter*, *Grease all points*, *Check tires / tracks*. Add a note under each one if needed, and tap **+ Other service** for anything not on the list.

The maintenance checklist.

Schedule a follow-up check

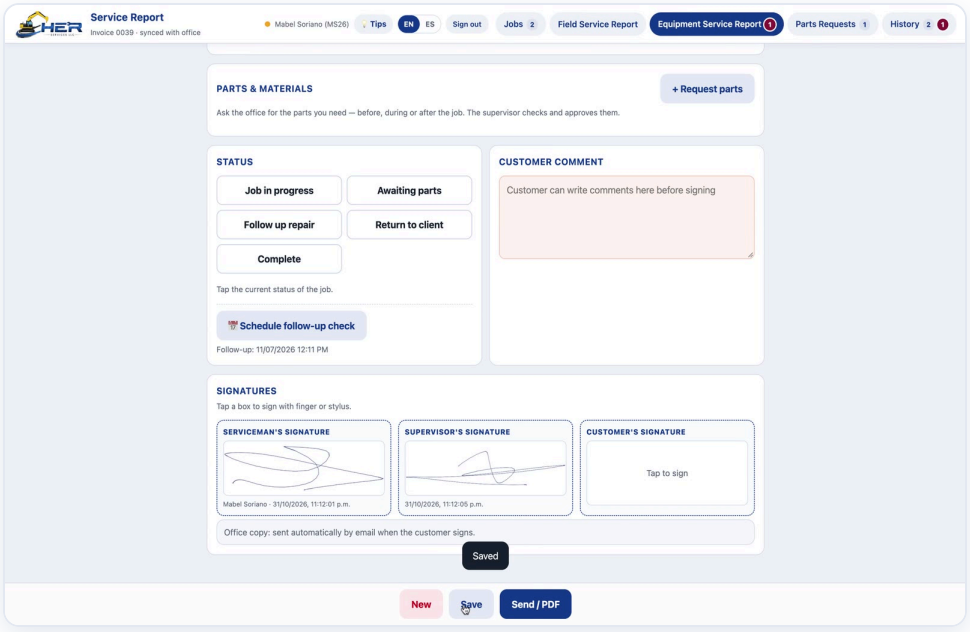

1. Tap **Schedule follow-up check**.
2. Choose the **Date** and **Time** and write **What to check**.
3. Check **The customer agrees to a WhatsApp reminder** if they agree.
4. Tap **Schedule visit**. The visit appears in Jobs, highlighted the day before and on the day.

Scheduling the next visit.

Sign and save

Collect the signatures and tap **Save** or **Send / PDF**.

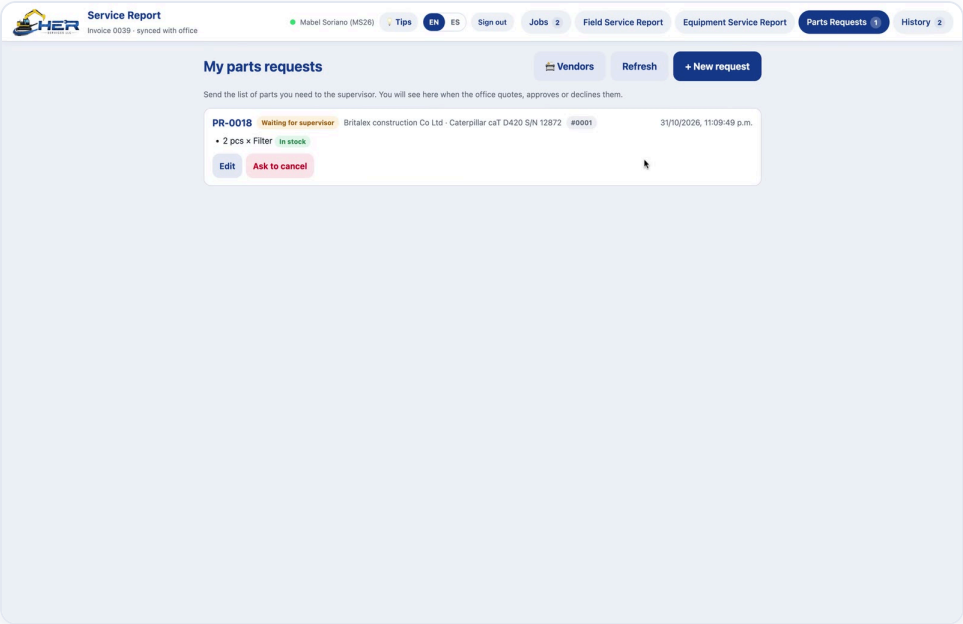

Signatures captured on the equipment report.

06 Parts requests

Parts Requests → My parts requests

Every parts request you sent appears here with its status (for example *Waiting for supervisor*), the customer and the machine.

My parts requests.

- **Edit** to change a request, or **Ask to cancel**.
- **+ New request** to ask for parts without a report.
- **Vendors** to see the supplier list, **Refresh** to see the latest answers.

Quick reference

The most common tasks at a glance

I want to...	Do this
See today's visits	Jobs → tap the job
Start a report from a job	Jobs → job → Start report / Equipment service
Move a visit	Jobs → job → Postpone (same day) or Reschedule → Confirm
Remind the customer	Jobs → job → WhatsApp reminder
Cancel a visit	Jobs → job → Ask to cancel → reason → Confirm
Record my hours	Report → Daily time record → + Add day
Ask for parts	Report → Parts & materials → + Request parts → Send to supervisor
Book the next visit	Report → Schedule follow-up check → Schedule visit
Get signatures	Report → Signatures → tap a box → Accept signature
Send the report	Send / PDF
Reuse a past report	History → Copy
Send reports now	History → Sync now

★ **Before you leave the site:** check the time record, the status and all signatures, then tap **Send / PDF**.
